

State Income Tax Refund Calculator

A state income tax refund is only taxable to the extent that the taxpayer benefited from claiming the state income tax as a deduction on the previous year's tax return. This tool calculates the amount of the tax refund that is taxable on this year's federal tax return.

The blue fields are computed from the information you provide. The green fields are where you enter information. Click [this link](#) for more help with this tool.

Previous Tax Year	2025
Filing Status	Single
Taxpayer's Birthday	12/18/1950
Taxpayer Is Blind	
State Tax Refund	5000

Schedule A Information from Previous Year

State Income Tax	5000
Sales Tax	debug
Sales Was Tax Used	
Real Estate Taxes	0
Personal Property Taxes	0
Total Itemized Deductions	18200

Taxable Amount of the Refund

Taxable Amount	450
Explanation	Taxable part of refund was greater than the difference between itemized and standard deductions, so taxable amount is limited to that difference.

Debugging Output
